Learn the skills of your characters and use them to the maximum. Missions, where you need to defeat the enemies of certain factions (colors), it is best to go to the following locations: The fraction of fire (red): 4-1, 6-2 , 6-8, 11-6, 12-6, 12-8, 19-4, 19-6, 20-4, 20-7. Quests: "Get Iron "," Collect food "," Get experience. Thus, 8 passes are enough to get a chest. In good games, there is no such mockery of players, tasks are given there once a day, and you do them during the day at a convenient time. The program is completely in Russian. Alliances and Titans in the game Starting with character development level 4, you can join an alliance or create your own. The game "Empire and Puzzles" on the PC is different from the game on the smartphone: The mouse will emulate the touch of a finger, like on a smartphone. If you eat a lot of food, you can use one of the camps for the production of "Unusual" heroes (this is camp level 2) 4. Overnight rivals accumulate a lot of resources and in case of your victory, the reward will be very impressive. As a rule, the forge is transformed into barracks. However, at any time, you can return the old building back, it's free and takes 10 seconds. Blue beats well red , red - green, and green takes 2 times more from blue. There is a rating of players in which you can see the composition of their team. Secondly, swing the mine. If you have a lot of food and iron and you don't know where to put it, then first of all improve warehouses, because to build them you need a lot of resources. These events include: the beginning of a new construction, the beginning of missions, the appearance of Titan, the complete filling of any energy, the beginning of Mystical Vision (the tower to the left of the castle, where a 30-second commercial is given is not a bad reward). However, the process of completing missions contains many tricks: 1. The placement of heroes is important when defending your castle against the attack of an enemy player. It is necessary to collect cups only in order to enter a strong alliance, in other cases they will only complicate the game. 4. The points of a new alliance should be at least 1.5 times larger than that of the current one, otherwise you risk changing the "awl on soap". Since everything else, including the 5-star hero, the game can be obtained for free. That is, having consumed energy in the evening, by the middle of the night it will fill up and will start to disappear further. Especially when all the characters pumped, and consumables are made. However, if you repeatedly press the "Search" button, the results will differ. 2. But the developers regularly hold events, promotions and contests among players and subscribers. Of course, the decision to play or not, remains for you, but we recommend you to think three times! Author of the article: Yaroslav I. Level Barracks Level Citadels Iron Time one ten 250,000 10 sec 2 eleven 300,000 1 d. Heroes-healers, heroes-defenders, heroes-amplifiers, as a rule, impose their effect on the whole team, therefore when you have 2-3 heroes alive, they are ineffective. Since the next increase in the cost increases, therefore, increasing once by 10 points at once, you will save a lot of food. The maximum level of the barracks is 10. Promotions are held in the official community of the game : With a translator to make it easy. Installing the game on a PC will allow you to play at any time, even during working hours, which will accelerate your development in the game. If the search string is empty, it will display almost all available alliances. four 13 514,000 1 d. Otherwise, during the construction of the castle there will be a lot of iron that will start to disappear. There are regularly held contests 5 lucky winners receive 600 gems (crystals). But if you hit against the red arrow and hit the blue one, it will cause only half the damage. I wanted a snack at night - take a smartphone. Because when reaching the next threshold of 200, 400, 600, etc. If you decided to acquire your own alliance, it is better to do this when you gain experience and achieve certain success in the game, because Alliance members look first at the leader. It is not recommended to leave the alliance at the time of the battle with the titan, which you can kill, because in case of a change of alliance, the rollback of the mission to kill the titans lasts 12 hours. In total, to successfully complete the mission, you need to kill 40 heroes. It is much more convenient to chat on a PC because Typing speed on a standard keyboard is usually higher than on a smartphone. Contents What are the best heroes in Empires & Puzzles? 2. 5 h. Therefore, the number of grammatical errors in communication will fall to almost zero. Light fraction (yellow): 9-4, 9-7, 10-6, 12-3, 12-9 . How to play Empires & Puzzles on PC? However, it is better to conduct a false battle on your own. If you use the same Google Play account on both the phone and PC, all your progress will be saved. The list of alliances is ranked by their score, which depends on the amount of its players' cups and the level of defeated titans. If the warehouses are filled to capacity, do not get new iron and food from farms and mines. You need to learn to think 2-3 steps forward. Castle upgrade lasts a long time. Extra resources can be spent in the forge, producing combat consumables, or in a recruitment camp. With yellow and purple, everything is simple: yellow is good against violet and bad against yellow, and violently beats yellow enemies but poorly violet ones in the same way. Iron at high levels also becomes a lot, because buildings are built for a very long time, and you can accelerate the construction, only for crystals (read - real money). After installation, you will see the game icon not only in the BlueStacks program, but also on the desktop. Do not open positions in the forge and camp that you do not plan to use. Therefore, when getting better old heroes should not be deleted! How to effectively raise the level of the hero in Empires & Puzzles? Those who hit on one goal always effective. To save time, use the autoboot feature (top right). 6. It often happens that the energy starts to disappear. BlueStacks automatically checks spelling and underlines words with errors with a red bar. To do this, by the beginning of the passage of the mission you need to accumulate a maximum of the corresponding type of energy. Ice fraction (blue): 8-1, 8-3, 8-5, 8-7 , 9-1, 9-3, 9-5, 9-9, 13-5, 13-8, 14-5. There are several reasons for this (negative reviews): 1. Therefore, if you open the game to full screen, you will get something like this. The reward for the defeated titanium depends on the damage done and your place in the alliance rating. Any building other than a warehouse can be converted into a barracks, but the building itself must be at least level 5 and the castle must be at least level 10. WISE GEEKMOBILE GAME GUIDESUNOFFICIAL GUIDESABOUT US EMPIRES & PUZZLES: RPG Quest - one of the few creations of the Finnish company Small Giant. 12 h. In a battle against bosses and titans, it is necessary to focus a blow on a single target. If you try to start the game simultaneously on both a smartphone and a computer, then one of the devices will display this: Different secrets of the passage of the game Empires & Puzzles World energy used for passing the map and quests is completely filled within 3, 4, 5 hours (depending on the level of the player). It is better to raise the level of the heroes of the same color, because in this case, the gain in experience is greater. First of all, we recommend paying attention to open alliances, since in closed your invitation may be considered for a very long time. Therefore, a certain element causes double damage to the enemy, and the other hand, on the contrary, deals half damage. It turns out like a roller coaster up and down, up and down. At the level of 7-4 is the maximum number of monsters - 15, so for 7 battles, after spending 21 units of world energy, you complete the mission and get a chest. Let me remind you that a healthy person's sleep is 7-8 hours, a working day lasts an average of 8 hours. Negative reviews about the game After playing a game for a long time, we had a steady desire to remove it. The pumped heroes of 3, 4, 5 stars need to be left, because they will come in handy in the monthly contest. Similarly, you need to leave pumped 2, 3, 4 star troops (troops). Therefore, it is often necessary to specifically lose, put up in defense of weak heroes in order to lower your rating, and then fight with weak players. In order not to miss some events in the game - set the alarm (timer). It is also easier to get the help of experienced players in the alliance chat. 4 h. Do not seek to get a lot of cups. To search, just go to the Alliances tab and click the Search button. After hitting, the titan will be stunned and will not attack you. Therefore, the hero will often use his super-ability. Before his upgrade, make sure that the amount of iron stores will be 30% higher than that required to improve the lock. It is better not to beat puzzles to enemies who have magic (with a strip of manna), because this greatly replenishes their manna, therefore, enemies more often use super-blows. If you have a lot of cups, then you in PvP will meet strong opponents, respectively, to fulfill the mission, where you need to defeat 40 enemy heroes will be much more difficult. Conclusion - play at night. 3. Iron is the second most important resource in the game. You can raise troops at the expense of other troops of the same color. For free token summoning give basically all sorts of nonsense, the chance of getting a good hero is minimal. The cost of building and improving the barracks. We use cookies. Free to get new three, four, and even more five-star heroes is very, very difficult. 3. Strange rewards in PvP . The maximum level of increase in units depends on the level of the barracks and the rarity of the troops. Increase the level of the castle after all the farms and mines are pumped to the maximum. You can simply copy the correct answer from a competitor. After receiving every 200 cups, we recommend you look for a new alliance. 20 h. Rating is displayed in the chat after winning. For example, a skill that beats all enemies is better to use against 2 or more monsters; you should not finish off a monster with a small hero's health, it is better to save the charge for the next round; use the treatment when you really need it. The game has an official Facebook channel . Curve rollback of events . The conditions of the contests are simple to ugliness: make a repost, put a like, and answer a simple question. The level of the hero is most effective to increase immediately by 10 points, and not 10 times by 1 point. Third, swing the Watchtower. It is schematically depicted in the upper left corner of the battlefield and in the image below using colors and arrows. For example, one of the last questions was: how many pumpkins are depicted in the picture (the correct answer is 21) Empires & Puzzles: Cheats and Secrets of the Game "Empire and puzzles" does not provide for the input of promotional codes. Calculations showed that it is most effective to produce "fodder characters" at a low price in the training camp (these are 4 and 11 levels of the camp). By clicking on the enemy, you can get information about his skills, the effects imposed, and find out the exact state of his health. Do not swing buildings above the level you need: warehouses, houses, camps, forges and a tower. How to quickly pump castle and buildings in Empires & Puzzles Bleeding in the game "Empire and Puzzles" consists of the development of heroes and the development of the castle. That is, the beginning of a new event may and often happens at the time when a person is sleeping or working. This is confirmed by other experienced players. Game Genre: Puzzle. In such cases, fold the puzzles so that the blows pass by, in this case the strip of manna of your heroes is replenished much faster, and the blows of your heroes against the enemy do not add his manna. 1, 3 12 368,000 1 d. The game is designed for a smartphone upright. The best moment to attack enemy players is early in the morning. Attention, the Wise Geek website is constantly updated, visit us more often. The main reason for which they can be expelled from the alliance is the absence of damage to the titanium. Therefore, if you do not plan to attend the game for several days - warn the leader about this. In the battle with titanium try to get three chips in his weak spot. Otherwise, your progress will not be saved and you will have to start all over again. Lack of balance of resources. How to raise the level of the troops (detachment) in Empires & Puzzles Increasing the level of troops carried out in the barracks. Accordingly, the right mouse button will not work. And you will not be able to control using 2 fingers, for example, you can no longer bring the lock like on a smartphone. Their use can decide the outcome of the battle. The tricks of combat in Empires & Puzzles Victory in battle is achieved both by strikes from three elements assembled in a row, and by strikes of heroes. However, the effectiveness of such strikes may be different: Enemies have certain colors, which can be determined by the color of the circle under his feet. See illustration to item 1. Rollback missions begin with the receipt of the award. We do not recommend creating your own alliance in the early stages of the game, because due to the high competition it will be very difficult to unleash it. If, for example, you lost the battle during a raid on an enemy player, but managed to kill 2 of 5 of his heroes, then you will get 2 points for the mission. The probability of getting a stern hero in both 1 and 2 levels, of the wrong color was taken into account, as well as the cost of production and raising the level of the hero. Before raising the level of your player, it is advisable to expend all kinds of energies, as they are filled up when moving to a new level. To find a more suitable alliance you do not need to leave the current one. In the mission to defeat the heroes, all fallen heroes of the enemies during raids are counted. To quickly reduce the number of cups, put a weak character in the defense squad, run from the battlefield during the raid and during the mission rollback. After you have found a suitable guild, leave your current alliance, say goodbye to all beforehand and join the new one. There is no incentive to achieve a high PvP rating. For the speedy completion of missions to kill monsters, you need to go through locations on the map that contains the maximum number (13-15) and requires 3 units of energy to pass. No need to download a hero that you do not use, as well as heroes of level 1 - this is a waste of time and resources. Passing missions For the execution of missions in the game "Empire Puzzles" are given gems, hero summoning tokens, and other buns.
